

# Sports Doctor

Dr Tim March specialises in Sports and Orthopaedic Medicine. He has a particular interest in the treatment of back problems which includes spinal manipulation and injection techniques such as epidural injections for sciatica. More recently he has become interested in the treatment of male menopause (andropause) as well as oestrogen dominance in women.

A GP referral is not required for an appointment with Tim. He currently consults out of [Langwarrin Sports Medicine Centre](#) on Mondays and Thursdays.
